## CORE COMPETENCIES

ZenaDrone 1000 aims to revolutionize security, surveillance, inspection, detection, monitoring, and scanning needs of various corporate industries and commercial sectors. The ZenaDrone technology continuously adapts to the different needs of many companies and civil sectors requiring customization of drone attachments to meet business operation specifications.

We offer several customizable drone-as-a-service solutions to meet your organizational needs:

- Surveillance and Tracking
- Inspection and Monitoring
- Scanning and Detection
- Project Management
- Artificial Intelligence
- Machine Learning Systems
- Software Development
- Autonomous Flights
- On-Site Remote Assist
- Technical Support
